

21 February 2025

## **CEGH VTP reached a nominated volume of 48.06 TWh in January despite the challenging market environment!**

- **48.06 TWh nominated on the CEGH VTP this January, despite the Ukrainian gas transit stop!**
- **32.82 TWh traded on the EEX CEGH Market Austria, a plus of 10.1% compared to the previous month.**
- **2.01 TWh traded on the EEX CEGH Czech Gas Market this January.**

### **CEGH VTP:**

Nominated gas volumes on the CEGH VTP reached 48.06 TWh.

The churn rate was 4.97 (the churn rate is a measure of liquidity and indicates how many times a MWh of natural gas is traded before it is finally physically transferred).

Per end of January, CEGH had 366 registered members.

### **EEX CEGH Austrian Gas Market:**

In January, 32.82 TWh were traded on the EEX CEGH market in Austria, an increase of 10.1% compared to December 2024 of which 14.03 TWh were traded on the Spot Market.

The Futures Market recorded a volume of 18.79 TWh, an astonishing increase of 48.7% compared to the previous month!

Per end of January, 190 members were registered on the Austrian EEX CEGH Gas Market.

### **EEX CEGH Czech Gas Market:**

A total of 2.01 TWh were traded on the EEX CEGH Czech Gas Market this January, with the Spot Market contributing 1.71 TWh.

On the Futures Market, 0.30 TWh were traded.

Per end of January, 85 companies were registered on the EEX CEGH Czech Gas Market.

### CEGH GreenGas Platform:

CEGH launched, as one of the first players on the gas market, the CEGH GreenGas Platform in April 2022. It is the first platform to support the decarbonization of the gas markets by providing trading possibilities for Green Gases. It will be a marketplace for biogas supply and demand as well as for green hydrogen, once green hydrogen becomes available on the market.

If you are interested in what we created to support the change in the energy system and how you can benefit from it, have a look on our website [www.cegh.at/en/greengas](http://www.cegh.at/en/greengas) or directly on the [CEGH GreenGas Platform](#).

### CEGH GreenHydrogen Index:

In December 2022, CEGH launched the second project to support the energy transition: The CEGH GreenHydrogen Index!

Again, as one of the first players on the gas market, CEGH has started publishing the CEGH GreenHydrogen Index as an index for the production costs of Green Hydrogen in Austria. The Index will serve as a price reference for Green Hydrogen in Austria and in Central Europe.

If you are interested in the different kinds of green hydrogen and further details about the CEGH GreenHydrogen Index, have a look on our website [CEGH GreenHydrogen Index Specifications](#) or directly on the [CEGH GreenHydrogen Index website](#) to see past and current values.

### Background information:

#### **Central European Gas Hub:**

Central European Gas Hub AG (CEGH) is the operator of the Virtual Trading Point (VTP) in Austria and provides a gas nomination platform for international gas companies. The Gas Exchange products for the Austrian and Czech markets are offered on EEX Gas in cooperation between EEX and CEGH.

CEGH is a subsidiary of OMV Gas Logistics Holding (65%), Wiener Boerse (20%) and Eustream (15%). In 2023, CEGH has proven its position as one of Central Europe's leading trading platforms when it achieved a nominated volume of 700 TWh of natural gas at the CEGH VTP, despite the challenges on the European Gas Markets.
